Company: Qwest

mailing_list_yes_no: yes

Comment_description: Our ranch families at Flat Top Sheep Co. have a long and difficult record with Qwest. The repeated calls for help and service on these phones which are both our home and even more importantly our business phones should be on record with Qwest and with the PUC over the years. Further, located as we are an hour's drive from town out of cell phone range, it is both difficult to be without service and to reach a phone to report the problem.

We would support any measure which would allow Qwest to upgrade its equipment and relieve our stressful relationship with them. Our support is predicated on the belief that our service at Flat Top Sheep Co. (and those of neighboring ranch families) would be upgraded as a result of these funds.
